SUMMARY

Motivated and adaptable professional with hands-on experience building functional, responsive websites. Graduate of a structured web development program with practical skills in creating user-friendly digital solutions. Known for strong communication, reliability, and the ability to work effectively in fast-paced environments. Brings solid teamwork, organization, and problem-solving skills to every role.

EDUCATION

CodeSpace

May. 2025 – Nov. 2025
Software Development

EXPERIENCE

CodeSpace | [View Repo](#)

May. 2025 – Nov. 2025

- Developed a web-based Kanban task board application using HTML, CSS, and JavaScript, deployed live on Netlify for easy access and demonstration ([live demo](#)).
- Implemented **drag-and-drop functionality** for task cards, enabling users to move tasks between "To Do," "In Progress," and "Done" columns intuitively.
- Designed a modular data structure (e.g., tasks.js or similar) to manage task objects, making the app scalable and maintainable.
- Built a responsive UI that adapts to different screen sizes, ensuring usability on desktop and mobile devices.
- Included form-based task creation and deletion, giving users full CRUD (Create, Read, Update, Delete) control over their tasks.
- Utilized **local storage** to save task state across browser sessions, ensuring users don't lose their work.

Administrative Office Assistant and Receptionist

Jul.2022 – Feb.2023

Ridon Communication Cape Town, SA

- Managed daily office routines, contributing to a professional environment by maintaining cleanliness and preparing morning refreshments.
- Packaged and labeled wines for clients and events, ensuring brand consistency and damage-free delivery.
- Completed time-sensitive personal and professional errands, including secure handling and delivery of high-value packages.
- Streamlined administrative support by moderating and printing certificates, improving turnaround by half the time.
- Provided logistical support during company events and promotions, contributing to successful execution by working extended hours.
- Acted as the primary point of contact for deliveries and incoming calls, ensuring efficient daily operations and seamless communication.
- Supervised bottling process of wine samples, ensuring quality control and timely completion for marketing use.

PROJECTS

Glowing Skincare | [View Repo](#)

HTML, CSS, JavaScript, Git

- Built a **fully responsive e-commerce skincare website** using HTML, CSS, and JavaScript, deployed live on Netlify ([live demo](#)).
- Implemented **dynamic cart functionality** with vanilla JavaScript: users can add items to cart, increase/decrease quantity, and remove products — creating a smooth, interactive shopping experience.
- Designed and structured product data modularly via a products.js file, making it easy to manage and render product listings dynamically.
- Optimised for mobile-first design using CSS Flexbox and responsive breakpoints, ensuring a consistent experience across devices.

SKILLS

Languages: HTML, CSS, Bootstrap, Tailwind CSS, React JS

Developer Tools: Git, VS Code, GitHub

CS Qualities: Technical Excellence, Computational Thinking, Autodidacticism, Reliability, Teamwork
